ABOUT doughXpress®

doughXpress® began in 2002 with one air-automatic pizza press. They have since grown to offer over eighty different pieces of food processing equipment. doughXpress® has the best price and value in today's marketplace. Products include the following:

Pizza Presses

Tortilla Presses

Dough Sheeters

Conveyor Toasters

NEW Electric Deck Ovens

Tortilla Warmers

Dough Dividers

Dough Divider Rounders

Gravity Feed Bread Slicers

Full-Line Spiral & Planetary Mixers

Carts & Tables

Full-Line Accessories

NEW Gas Griddles

NEW 2-Sided Split Grills

- Panini
- Flat

INTERCHANGEABLE PRESSES

These commercial grade pizza presses from doughXpress® offer the most efficient and cost effective way to produce pizza crusts. These presses make consistently airy crusts and are easy to operate. The new color LCD touchscreen is easy to read and provides precise time/temperature control. Available in manual, electromechanical or automatic air. The interchangeable lower platen molds make changing crust sizes a breeze. These presses have production capacities up to 200 crusts per hour; this press is suited for any pizzeria, convenient store, cafeteria, bowling alley, food truck or restaurant serving pizza.

FEATURES	BENEFIT
1 Full color LCD touchscreen	Provides precise time and temperature control
2 Variable thickness adjustment	Virtually any thickness crust - up to 3/8" thick
3 Swing-out lower platen	Makes dough placement easy
4 Interchangeable lower platens	From 8" -18" size crust options
5 Upper platen heat (up to 200°)	Relaxes dough ball for better flow & easy pressing

DXA-W Air Press

ITEM # 11060 STARTING AT \$ 6,440

Electrical: 120v / 60 Hz – 1150 watts – 9.4 Amps – Standard 5-15P NEMA plug

Dimensions: 18 3/16"W X 25 1/8"H X 24 11/16"D

Weight: Press 175 lbs / Shipping 225 lbs

Air: 100-130 PSI Inlet, 1 CFM

Optional: PTFE coated platens • 220v / 60 Hz – 1150 watts – 4.5 Amps – 6-15P NEMA plug (call for pricing)

AIR COMPRESSOR REQUIRED

DXE-W Electromechanical Press

ITEM # 11240 STARTING AT \$ 7,200

Electrical: 120v / 60 Hz – 1320 watts – 11 Amps – Standard 5-15P NEMA plug

Dimensions: 18 3/16"W X 25 1/8"H X 24 11/16"D

Weight: Press 175 lbs / Shipping 225 lbs

Optional: PTFE coated platens • 220v / 60 Hz – 1150 watts – 4.5 Amps – 6-15P NEMA plug (call for pricing)

DXM-W Manual Press

ITEM # 11232 STARTING AT \$ 4,800

Electrical: 120v / 60 Hz – 1150 watts – 9.4 Amps – Standard 5-15P NEMA plug

Dimensions: 22"W X 31 3/8"H X 30 7/8"D

Weight: Press 171 lbs / Shipping 221 lbs

Optional: PTFE coated platens • 220v / 60 Hz – 1150 watts – 4.5 Amps – 6-15P NEMA plug (call for pricing)

DXA-SS Air Press

ITEM # 11243 STARTING AT \$ 6,610

Electrical: 120v / 60 Hz – 1150 watts – 9.4 Amps – Standard 5-15P NEMA plug

Dimensions: 18 3/16"W X 25 1/8"H X 24 11/16"D

Weight: Press 175 lbs / Shipping 225 lbs

Air: 100-130 PSI Inlet, 1 CFM

Optional: PTFE coated platens • 220v / 60 Hz – 1150 watts – 4.5 Amps – 6-15P NEMA plug (call for pricing)

AIR COMPRESSOR REQUIRED

DXE-SS Electromechanical Press

ITEM # 11238 STARTING AT \$ 7,470

Electrical: 120v / 60 Hz – 1320 watts – 11 Amps – Standard 5-15P NEMA plug

Dimensions: 18 3/16"W X 25 1/8"H X 24 11/16"D

Weight: Press 175 lbs / Shipping 225 lbs

Optional: PTFE coated platens • 220v / 60 Hz – 1150 watts – 4.5 Amps – 6-15P NEMA plug (call for pricing)

DXM-SS Manual Press

ITEM # 11230 STARTING AT \$ 4,945

Electrical: 120v / 60 Hz – 1150 watts – 9.4 Amps – Standard 5-15P NEMA plug

Dimensions: 22"W X 31 3/8"H X 30 7/8"D

Weight: Press 171 lbs / Shipping 221 lbs

Optional: PTFE coated platens • 220v / 60 Hz – 1150 watts – 4.5 Amps – 6-15P NEMA plug (call for pricing)

doughXpress®

INTERCHANGEABLE PLATENS

Interchangeable lower platen molds are compatible with all DXA, DXE, and DXM models. Each DX series press includes an 18" Flat lower platen. Matched with the doughXpress® interchangeable platens it's quick and easy to switch between crust sizes. Each platen has a built in groove to form a consistent crust edge every time. Cutting down on setup time and maximizing output.

A perfect complement to the interchangeable platens is the doughXpress® DXP-PR interchangeable platen rack. The additional size lower platens can be easily and conveniently stored next to your DX series dough press. Allowing for easy access, storage and quick changes between sizes.

DIGITAL SWINGOUT

Commercial tortilla presses offer your operators the ability to speed up production with faster pressing times. You won't find a more capable and well-built product available in the food service equipment industry than doughXpress®. Our tortilla presses are designed and engineered with production speed, efficiency, consistency, and of course, safety in mind. All of our products are easy to use and do not require any degree of skill or extensive training to operate. With the right doughXpress® equipment, you will easily recognize more consistency in your tortillas, more efficiency and speed in your production, and greater profits on your bottom line.

FEATURES	BENEFIT
1 Full color LCD touchscreen	Provides precise time and temperature control
2 Variable thickness adjustment	Virtually any thickness crust - up to 3/8" thick

doughXpress.

ARE YOU PRESSING YET?

What better way to entice the appetite than with the sight and smell of fresh hot tortillas. The tortilla line of presses from doughXpress® has brought consistency and profitability to the process with the capability of producing as many as 400 six inch tortillas per hour. The unsurpassed quality and efficiency of doughXpress® tortilla press has become a benchmark for how tortillas should be made and are being used in Mexican and Tex-Mex restaurants worldwide. Each press is specifically built with dual heated platens to evenly flatten the dough and partially bake it in seconds while maintaining consistency and quality.

TORTILLA WARMERS

Nothing entices the appetite better than the smell of fresh, hot tortillas. The doughXpress® TXW line of tortilla warmers work alone or coupled with a doughXpress® tortilla press for a complete tortilla package. After pressing the tortillas, finish them off on the TXW-1620, a 16"x20" warmer; the 20"x25" sized TXW-2025; or the large 40"x25" TXW-4025 model. Each warmer is designed to heat evenly and reach temperatures of 410°F giving those tortillas a fresh tortilla taste and smell.

FEATURES

- 1 Temperature control dial
- 2 Even heating platen
- 3 Adjustable legs
- 4 Safety rail

BENEFIT

- Heating range from 200°F - 400°F
- Provides constant heating of product
- Aids in leveling the warmer
- Prevents accidentally touching the surface

THE NEW WAY TO PAILLARD DOUGHXPRESS MEAT PRESS

Good chefs know the importance of making good paillards. These flattened cuts of chicken, pork, veal or fish cook more evenly and have a larger center of plate coverage. Before the line of meat presses from doughXpress®, hammering the cuts with a mallet or rolling pin was tedious, inconsistent and messy. Now with the large cold press or small cold press getting those delicious cuts perfect is as easy as pulling a handle down. Make hundreds of paillards per hour. The nonstick coated lower platens and swing out design make it easy to place and remove the cuts from the press.

MANUAL GAS GRIDDLES

The doughXpress® DXP-BACG griddles are designed to provide the ultimate performance and durability. As with all of our heavy duty counter top equipment, they are built to the highest commercial standards to ensure years of trouble free service, featuring superior frame construction and stainless steel exterior for easy maintenance.

FEATURES

- Stainless steel body for durability and easy to clean
- Highly polished 3/4" steel griddle plate
- Easy light pilot at the side of each burner
- Independent controls for each burner
- Enameled burners, designed to achieve the best performance, providing a more uniform roast with low consumption.
- Each burner heats 12" of the grill plate to provide an even heat distribution.
- Stainless steel splash guards around the griddles
- 4.4" enameled grease tray for easy clean up
- Adjustable chromed stainless steel legs
- Individual control of each burner allowing greater autonomy in operation, with pilot flames always on.

ELECTRIC DECK OVENS

The doughXpress® Electric Artisan Stone Deck Oven are European in design and performance. The ovens are designed for high volume baking, pizza, and all-purpose operations. Unique in both design and technology, our ovens are not only an excellent baking solution, but also offer a contemporary style serving as a centerpiece for today's high-end baking industry.

Its versatility makes it suitable for a wide range of products. This modular oven is suitable for any production capacity; the number of decks can be gradually increased as your business grows. Available in pan widths ranging from one through four pans wide and up to four decks high. Optional proofers and storage cabinets available on the one, two and three pan wide ovens.

FEATURES

- Baking temperature exceeds 570°F.
- Power on-off rocker switch for each deck.
- Heavy duty legs with lockable castors.
- Adjustable doors with large tempered glass windows
- Chamber oven light controlled by switch.
- Heavy duty construction with stainless steel exteriors.
- Large tempered glass windows.
- Fully insulated with rock wool.
- Sturdy wheel legs and lockable castors.
- Easy to use digital temperature controls with LED displays.
- 99 minute digital timers with audible alarms.
- Steam and stone deck included.
- Independent top and bottom heating elements.
- Separate steel decks offer the ability to add or remove decks.
- Pan width is based on 18"X26" full size pans

CONVEYOR TOASTERS

The doughXpress® DXP-CT Series Conveyor Toaster is perfect for toast, bagels and more. With its attractive design and easy to use functions this toaster is ideal for Restaurants, Hotels, Cafes, Delis and more.

FEATURES

- Attractive stainless steel design
- Available in 1, 2 and 3 slice feeds
- 5" clearance
- Faster and consistent heat with quartz-infrared heaters
- Easy to use control takes the guesswork out of temperature and speed control settings
- Variable speed and top / bottom heat control for the perfect toast each time
- Energy efficient operation with power saver switch that reduces electricity consumption up to 75% and quick recovery with quartz heaters
- Extendable stainless-steel conveyor belt for easy loading
- Safe load up area with full width coated front burner guard and cool to the touch exterior
- Smart crumb tray keeps the bread crumbs from falling under the toaster and easily removable to clean
- Heated holding area to keep toast at the perfect temperature
- Hi-limit switch prevents toaster from overheating, protecting critical component parts
- 1 year limited warranty

CONVEYOR BAKER

The doughXpress® Conveyor Baker is great for baking all types of bread, pizza, bagels, cookies and more. Designed to provide consistent heat with top and bottom infrared heaters and variable speed controls. Ideal for restaurants, convenience stores, cafes, and grocery stores.

FEATURES

- Body constructed of stainless steel
- Fast start-up due to the powerful 3,600 watt heating source
- Quartz sheathed heaters (2 above, 2 below conveyor) regulated by separate controls.
- Adjustable heat 158° F – 500° F (70° C – 260° C)
- Burn proof design prevents accidental burns during operation
- Variable speed stainless steel conveyor belt
- Bakes up to sixteen 12" or twelve 14" par-baked pizzas per hour
- Includes 2 removable catch trays that can be easily added or removed on either side of the oven.
- Menu items can be cooked in the same oven to offer superior flexibility
- Opening clearance: 3.25"
- 1 Year Limited Warranty

CHOOSING THE RIGHT MIXER

PLANETARY MIXERS vs SPIRAL MIXERS

It is very important to fully review your needs when choosing a mixer, as choosing the wrong style or size can slow down the operation of your business. Each mixer has its pros and cons depending on the needs of your application. Here is a list of the main features and benefits of Planetary Mixers vs Spiral Mixers.

PLANETARY MIXERS

- **All Purpose Mixer** used for whipping, mixing or beating a wide variety of products.
- **Multiple Speed Settings** to accommodate different ingredients – Eggs, Cake Batter, Potatoes, Dough, etc.
- **Size Options:** Available in tabletop and floor models.
- **Bowl Size** is measured by quarts. 7qt, 12qt, 20qt, 30qt, 40qt, 60qt, 80qt and 120qt.
- **Accessories:** These units generally come with an attachment hub to add on accessories like meat grinders and vegetable attachments
- **Limitations:** These mixers come with a capacity chart and if exceeding or constantly running at the capacity, they will have a much shorter life span.
- **Great for Restaurants, Bakeries, Cafes, Hotels and more.**

SPIRAL MIXERS

- **Dough Mixer**, great for all kinds of varieties of dough. Pizza, Bagel, Bread, etc.
- **Mixer Size** is generally by Flour or Dough weight.
- **2 Speed Setting**, which is great for developing your dough.
- **First Speed** helps bring the mix together into a consistent mass
- **Second Speed** develops the gluten structure of the dough.
- **Accessories:** These mixers come with a dough hook and attached bowl. Some models come with a removable bowl.
- **Limitations:** These mixers are only meant for dough and do not come with an accessory hub for attachments.
- **Great for Bakeries & Pizza Shops.**
